385K Space Saver 1

Service -> Hydraulic Workover -> Equipment

Our 340K Space Saver I is designed to optimize weight, operational performance and operator comfort. The small footprint and easily deployed skid frame make the Space Saver ideal for the offshore environment - live or dead well scenarios. The multi-purpose ability of this unit helps to efficiently extend the life of small mature fields.

The joint work string is handled by means of 2 hydraulic cylinders (3m stroke). The use of hydraulic cylinders allows perfect control of work string movements and makes it easy to handle all types of donwhole tools.

Technical Data

Max. pull capacity	385,000 lbs	175.000 kg
Max. push capacity	170,000 lbs	80.000 kg
Rotary torque	20,000 ft lbs	27.000 Nm
Stroke	10 ft	3 m.
Through bore	17"	432 mm
Slip bowls	600.000 lbs	270.000 kg
Gin pole	2 x 3,300 lbs	2 x 1.500 kg
	1 x 11,000 lbs	1 x 5.000 kg

Operational Activities:

- Handling all types of completions
- Offshore well redevelopment
- Live/dead well operations
- ESP Installation
- Packer setting/milling
- Well clean out
- Live well fishing
- Remedial operations

Advantages & Characteristics:

- Small Footprint
- Ideal for offshore projects
- Suitable for skid frames
- Proven reliability
- Perfect cost/quality ratio
- Adaptable
- Flexible
- Ergonomic
