### Company Profile

Balance Point Control GmbH is a dynamic company in the Oil & Gas, Salt and Geothermal industry. Our work area is onshore and offshore all around the globe. We repair wells for our customers under highly specialized conditions.

For our Slickline/ Wireline service team in Celle Germany, we are looking for a motivated Slickline Supervisor to strengthen the operational team:

## SLICKLINE SUPERVISOR

### The job:

- Responsible person during Slickline operations on site;
- Vocal point for the customer on site;
- Ensure that the job is executed in a safe manner according to planning and procedures;
- Create pre-calculations for projects and follow cost development during operations;
- Ensure the work is conducted according to the safety regulations;
- Maintain and prepare the equipment prior to load out.

### Skills and qualifications:

- Proven experience as Slickline Supervisor;
- Good Communication skills and capability of structured and independent work;
- Excellent interpersonal skills;
- Professional customer orientation;
- In possession of IWCF & Offshore certificates;
- Good understanding of Otis/ Baker /Camco tools and plugs;
- Excellent knowledge of 10k Pressure Control Equipment;
- Basic knowledge of E- line – Run CCL/Punch;
- Preferred Driving license for truck & trailer (CE);
- Experience with MS-Office (Word, Excel, Outlook);
- Good understanding of the German and English languages (written and verbally);
- High flexibility and willingness to travel;
- Living in Germany or willing to move, preferred in the Celle area.

### We offer you:

A very interesting job in an international environment, with a competitive salary and good secondary conditions in line with the tasks and responsibilities of the job.

### Information:
